

DHANUSH DHAMODHARAN

[Dhanush-D136 \(Dhanush Dhamodharan\)](#)[Dhanush Dhamodharan | LinkedIn](#)dhanushsinger872@gmail.com

+91 9994726807

Summary

Artificial Intelligence and Data Science undergraduate skilled in **Python programming, machine learning, computer vision, and database management**. Experienced in building **AI solutions using satellite data analysis and OpenCV-based vision systems**. Passionate about developing intelligent systems and data-driven applications.

Skills

- Python and Java programming
- C programming
- MySQL database management
- Team collaboration and leadership
- Stakeholder Management
- Data analysis tools

Experience

NSIC (National Small Industries Corporation Ltd) 07/2025-07/2025

Computer Vision Intern

- Practical exposure to image processing using Python and OpenCV.
- Foundations of object detection and tracking techniques.
- Introduction to deep learning models, especially CNNs, for vision tasks.

Vel Tech High Tech Dr. Rangarajan Dr. Sakunthala Engineering college (2024- Present)

Class Representative & Placement Coordinator

Education

Bachelor of Technology: Artificial Intelligence and Data Science 2024-2028

Vel Tech High Tech Dr. Rangarajan Dr. Sakunthala Engineering College
CGPA: 8.91

12th 05/2024

Bharat International Senior Secondary School (CBSE)
Percentage: 77.4%

10th 04/2022

Bharat International Senior Secondary School (CBSE)
Percentage: 77.4%

Certifications

Azure AI Fundamentals: Machine Learning (Infosys Springboard) Apr 2026

Oracle Cloud Infrastructure AI Foundations (Infosys Springboard) Apr 2026

Amazon SageMaker (Udemy) Feb 2026

Introduction to Machine Learning (Infosys Springboard) Jan 2026

Databases and SQL for Data Science (Issued by Coursera, Authorized by IBM) Aug 2025

Data Science & Analytics (HP LIFE) May 2025

Enhancing Soft Skills and Personality (NPTEL-Swayam) Apr 2025

Projects

Crop Yield Prediction Using Satellite Data March 2026

- Developed a machine learning model to predict crop yield at district/taluk level using satellite imagery, weather, soil, and historical yield data.

AI-based real-time student tracking system using CCTV. Dec 2025

- Real-time monitoring and tracking of students in classrooms using AI and CCTV,
- Automated attendance marking system based on facial recognition.
